Subject: Simplified alternatives analysis flowchart

Hi Everyone;

Here is a simpler flowchart for the nutrient standards alternatives analysis. It is on a single page and leaves a number of the details out, but captures the overall process well I think. Please let me know if this looks OK to you if you have time to review.

I think this is boiled down enough to be the only flowchart we present to the NWG. I was planning to have hard copies for everyone on the NWG and we could walk through a few scenarios if they like.

As before, it prints out nicely on 11X17.

Mike (See attached file: AltAnalysisFlowChart__Simple.doc)
